T36W-120/30-NW, TV36W-60SQ-NW
TV36W-120/30-NW-DALI

Basic safety precautions should always be followed when installing, including the following:

1. If you have any doubt, consult a qualified electrician.
2. Suitable for indoor use only, this product must be connected to Earth.
3. Disconnect the main power before installation.
4. This product is only suitable for use in dry areas (not for constant moisture areas), not recommended for use in bathrooms.
5. The chosen location of your new fitting should allow for the product to be securely mounted (e.g. to a ceiling joist) and safely connected to the mains supply (lighting circuit).
6. If the location of your new fitting requires the provision of a new electrical supply, the supply must conform to the requirements of the latest edition of the IEEE wiring regulations.
7. The luminaire must not under any circumstance be covered with heat insulating covers or similar materials.
