

# INSTALLATION MANUAL

## Pre-Installation Considerations

- Check whether it is an AC (Alternating Current) or DC (Direct Current) based system.

## Installation Dimensions (Unit: mm)

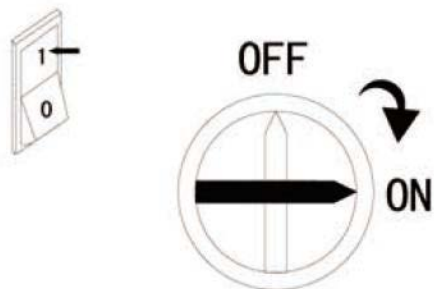

### Recommended Hole Size

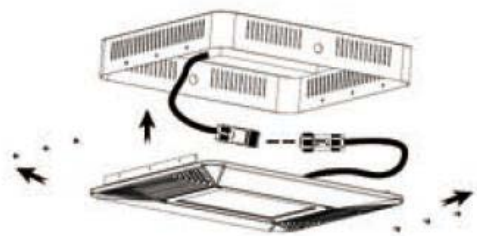

Model	Size A	
	Size B	
CL75W-SM	188.5mm(7.42inches)	200mm(7.87inches)
CL110W-SM	188.5mm(7.42inches)	200mm(7.87inches)
CL150W-SM	188.5mm(7.42inches)	200mm(7.87inches)

## Installation Instructions

### STEP 1

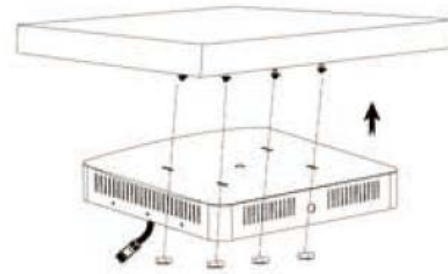

### STEP 2

Loosen the 6 screws on the left and right of the fitting. Remove the lamp from the cover and disconnect the driver from the lamp.

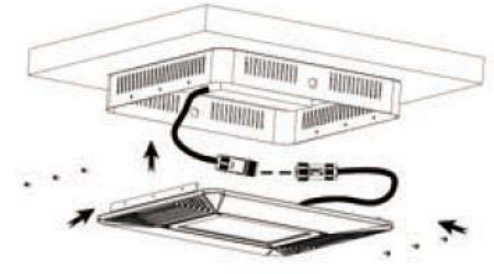

## Installation Instructions (continued)

### STEP 3

Place the cover on the ceiling and mark out the 4 screw holes. Then remove the cover and drill the 4 holes.

### STEP 4

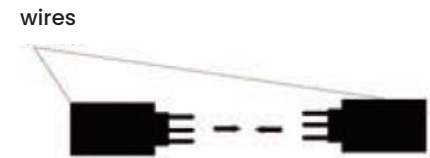

Place the cover on the ceiling, lining up the 4 holes and screw the cover to the ceiling. Then connect the driver to the lamp.

### STEP 5

Installation complete.

### STEP 6

Connect the wires

- AC L (Brown)
- AC N (Blue)
- AC (Green/Yellow)

### STEP 7
